

Sunday Morning

Health Corner

OCTOBER IS BREAST CANCER AWARENESS MONTH

-  Breast cancer is the second most common kind of cancer in women.
-  About 1 in 8 women born today in the United States will get breast cancer at some point.
-  Breast cancer occurs when cells divide and grow without their normal control.
-  The warning signs of breast cancer are not the same for all women.
-  The most common signs are a change in the look or feel of the breast, a change in the look or feel of the nipple and nipple discharge.
-  African-American women have the highest breast cancer incidence overall.
